# RF-Lite

Cost-effective sleeve coding system

The RF-Lite is a simple, low-cost offline coding system; ideal for companies looking to automate their date marking process for the first time. It also suits larger operators who are looking to install dedicated marking systems on multiple production lines.

RIGHT CODE

Fitted with clean, thermal inkjet technology, the RF-Lite is ideal for printing clear, concise date and batch codes onto sleeves and cartons.

RIGHT PLACE

The RF-Lite can consistently print codes onto all shapes and sizes of sleeve ranging from 30 x 70mm to 300 x 200mm. It only takes a few seconds to swap between sizes.

RIGHT COST

With its comparatively low upfront cost, the RF-Lite is an ideal entry-level solution for companies wanting to automate their offline date coding.

OTHER BENEFITS

- It's easy to set up and adjust; no training needed.
- The RF-Lite's tiny 500 x 500mm footprint means that it can be easily squeezed into tight spaces
- One-year warranty on the feeder; Two-year warranty on the coder

DIMENSIONS

System (Includes outfeed catcher)	(L x W x H) 800 x 495 x 520mm
Product	Min 30 x 70mm Max 300 x 200mm (product dependent)
Throughput	400/min (based on a nominal 100mm square product)

"This compact unit has dramatically reduced the time taken to code our cartons."

"Fast! Reliable! Great value for money!"

RF-Lite

X1Jet inkjet printer

The X1Jet is an extremely cost-effective TIJ printer that can print on both porous and non-porous surfaces with a resolution of up to 600 dpi.

KEY FEATURES

- Simple user interface to select one of up to 9 formats
- Extremely compact design
- Auto coding of formats such as use by dates and production codes
- True Type fonts
- Simple and quick cartridge change
- Free iDesign format design software

FAQ's

Q. Who is the RF Lite intended for?
A. The RF Lite was primarily designed for food producers who use food sleeves and need to add a date code, but it can be used for any flat card, sleeve or carton within the size range.

Q. What are the advantages of using TIJ technology?
A. TIJ makes no mess, no odor and is maintenance free. Every time that the cartridge is changed, so is the whole ink delivery system. This guarantees trouble-free running for many years.

Q. What combination of information can be printed?
A. The printer is capable of printing fixed information, a variable which the operator enters (ie., date code) and an automatically generated code (ie., Julian date). It can also print simple logos and barcodes.

Prints on Variety of Porous and non-porous subtrates
