

Integra VIVID HMI Display

Versatile and Easy

The Integra VIVID is a new 7-inch HMI color display with capacitive touch screen. The display allows the operator to edit the printer's current settings, check printer status, and select the desired message for coding.

Integra VIVID integrates with X1 series products that do not have an existing display. Compatible print technologies include HP, Funai, Trident and Seiko.

Advantages

- Visualized operation
- Unlimited messages possible
- Input of variable data
- Change settings directly on the device
- 800 x 600 pixel resolution
- The HMI-display can be removed during operation and can be used for other devices (ie, hot plugging)

Display

Specifications

Dimensions (H x W x D in mm)	132.2 x 200.6 x 27.3 (excl. bracket and connections)
Weight	1275g
Environmental Temperature:	5 - 40 ° C
Environmental Conditions:	10-90 % relative humidity (non-condensing)
Protection Class	IP 52
Maximum operating time	The system is designed for continuous operating
